Baez is the infield injury swiss army knife

Hold runners and pitch from the stretch as per default.

Throw for winning or tying runs at the plate in 6th or later. Keep the double play in order always. Play in 7th or later winning or tying run at third.

Intentional walk only when absolutely needed don't let best hitter beat us in bottom of the 9th if weaker hitter follows.

Ahead in 8th or later Cowser for Rooker. Vazquez to catcher.

Pitching

Starters should try to get into the 6th inning if possible. Most likely the 5th. We have a little over 4 RIP per game. On the boards one grade reduction for starters to get them into the 6th. Keep in if pitching a shutout, do not pitch past 10th inning. Remove when fatigued or reduced.

Relievers

1-5 Inning Morgan Freeland Marsh Pruitt. If losing by more than 5 Freeland,

6-7 Kerr, Stratton, Marsh Hernandez

8 Hicks Pruitt Stratton Kahnle

9 Kahnle Verhagen

10+ start at 6-7 and work down

Move relievers in and out and use in any role this is a suggestion. We have 4 LHP that can be used to match up as needed. Use multiple relievers as they fatigue. Longer fatigue pitchers in first.
