

2009 2010 Ruth Division Pennant Winner

A much more humble and polite season is expected from those wearing the orange and grey of the Whiskeyjacks in 2011. Preseason pundits have picked the New Westminster club to finish last and GM Jeatt has promised not to disappoint. Not a lot of moves for you to make except running out new pitchers every time one gets pounded. It will be a long dry summer. We play BBW

Line Ups

### **Hit and Run**

With runners on first this will be the first priority, when rules allow and less than two out. With any batter with 2 31s,

With runners Young, Ramirez and Fowler. One SBA per series per runner.

### **Straight Steal**

Fowler, Ramirez and Young 24+ Chances. One SBA per series per runner separate from above

### **Base Running**

24+ chances on the boards or well around on the computer. Also around on the computer if runner 15+ and arm equal less than 32

### **Sacrifice**

Hermida, Guzman, Any of the catchers, or Inglett, when we are behind 3 or less 0 out runner on first, or second or first and second

### **Pinch Hit**

Best bats are likely on the field

### **Defense**

Always look for the double play except winning or tying run on third and DP does not get us out of the inning then play in. Cut throws if lead runner is not scoring winning or tying run.

Hold at first except PR batter and not likely to be stealing

Player subs when ahead by less than 3 in the 8<sup>th</sup> or later Carroll for OF-1,

### **Bench**

Generally the following players are on the bench. Each month will specify starters and bench. If a starter is on the bench it is generally to rest for the series or part of it.

Any of the catchers on the bench are there for injury only.

Lillibridge is there for versatility.

Carroll also for his glove to replace any 1 rated OF.

The rest are just resting. Monthlies will indicate injury subs.

### **Pitching**

Starters are the strength so go as far as you can. Pitching a shutout stay with them till they fatigue. 10 inn Max.

When you have to choose only 4 innocuous pitchers you have a bad bullpen. Instructions will be sent monthly indicate who is up each month. Given a perfect situation Marshall is the set up and Broxton is the closer. Move the rest in and out. Alternate Corpas and 'quick draw' Simon as the first out of the pen. If they are not available Kawakami and Texeira will fill in nicely. The rest can be used to stop the bleeding. Marshall and Broxton can be used earlier in the game to kill a rally.
